

We cater for all types of Piercing and body mods from mild to wild. We provide a relaxed friendly environment. Consultations and after procedure check-ups are always free. We pride ourselves in our Hygiene and use the most up to date FOUR phase sterilisation procedures.

All jewellery used for piercings is Titanium and bears Certification of International Materials Conformity to EU Nickel Directive (76/769/EEC). If you have any questions please ask us, we don't bite! We offer a full range of Body Modification procedures, including Microdermal Implants. We have an experienced and talented guest artist who offers scarification, branding, subdermals, magnetic implants and more. Please contact us for details as prices for these are available upon consultation. If you cant see what you need just mail us or phone for the information.
